5-12 years old

Cost Per Day:
$45 for members / $60 non-members

Cost For the Week:
$125 for members / $175 non-members

Hungerford Nature Center is offering a week of school vacation explorations. Each day will be a peek into our Summer Discovery program offerings. Spring will be here and we will be spending most of the class time outside exploring. Check out our daily listing and sign-up for as many days as fit in your schedule! Discounts available when signing up for the full week and for siblings.

Please bring a peanut free snack and a drink. We will be spending part of the class outside if the weather permits so please plan accordingly. That means above freezing and safe conditions- not too icy or windy.

Monday April 8
STEAMers
This day will be full of science, technology engineering, arts and math! We will be creating works of art from materials we find in the woods. We will be using microscopes to examine the finest details!

Tuesday April 9
Eco Explorers
We will spend this day learning about the positive impact we can have on our environment. Create your own artistic expression to take home using recycling and upcycling!

Wednesday April 10
Forest Wanderers
Let’s spend the day exploring the woods. We will focus on the food web which is occurring all around us in the woods. From birds to chipmunks, hawks to fish we will look for signs of them all.

Thursday April 11
Pond Explorers
Spring is a time when the pond begins to come back alive. What will we be able to discover when we take our nets and magnifying glasses down to the pond? Hoping our turtles will be back sunning themselves too.

Friday April 12
Animal Caretakers
So much goes into taking care of the animals at our center. Each animal has unique needs and wants. We will meet some of our animals, help with their daily care, and have lots of fun.
